

The MaxiiCopper Model Vi2304A, Vi2308A and Vi2316A hubs are revolutionary data transmission devices that extend full-duplex High-Speed Ethernet over existing or new UTP infrastructures. They extend 10BaseT signals up to 3,000 ft. (909M), 100BaseT up to 2,100 ft. (640m) for 802.3 af and 800 ft. (242m) for 802.3 at. They employ MaxiiCopper, an innovative and unique Ethernet extension technology, that is designed to take full advantage of high-bandwidth UTP cables and maintain a full-duplex 10 or 100 Mb/s Ethernet connection up to the maximum range - with minimum transmission error and latency. Multiple remote network devices such as Mega-pixel IP cameras or VoIP can be connected to a central LAN switching fabric with ease. Their dual-rate capability provides an easy way to balance the best possible network throughput and long-reach distance design. The Vi2304A, Vi2308A and Vi2316A support 4, 8 and 16 ports. 1 pair can be used for both 10BaseT and 100BaseT signals. 4 Pair is restricted to 100BaseT use.

These hubs need to be deployed along with Vi2301A on the remote end of each UTP cable. They are equipped with LEDs to provide link status and configured data rate for each port. They are completely transparent to the corporate IP network and higher layer protocols and require no IP programming or other configurations.

The Vi2308A and Vi2316A are offered in 19 inch 1U height enclosure for rack-mount or wall-mount applications. They are ideal for medium to large scale IT networking or digital CCTV projects. The UTP cable needs to be point to point without any branches.

## Important Safety Warning

- Read and keep these instructions.
- Heed all warnings.
- Follow all instructions.
- Do not use this apparatus near water.
- Clean only with a dry cloth.
- Install in accordance with the manufacturer's instructions.
- This installation should be made by a qualified service person and should conform to all local codes.
- DO NOT bundle UTP or UTP signals in the same conduit as high-voltage wiring.
- To reduce the risk of fire or electrical shock, do not expose these products to rain, moisture, dripping or splashing.
- No objects filled with liquids, such as vases, shall be placed on Vigitron equipment.
- DO NOT install the unit in a place where the operating ambient temperature exceeds 75°C.
- Make sure that the external power supply output voltage is in the recommended range.
- Do not install near any heat sources such as radiators, heat registers, stoves or other apparatus (including DVRs and NVRs) that produce heat.
- Protect the power cord from being walked on or pinched particularly at power source, convenience receptacles, and the point where they exit from the apparatus.
- Only use attachments/accessories specified by the manufacturer.
- Unplug this apparatus during lightning storms or when unused for long periods of time.
- Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as when a power supply cord or plug is damaged, liquid has been spilled, objects have fallen inside the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
- The main plug is used as the disconnect device and shall remain readily operable.

**! WARNING!** - To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture. This apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases shall be placed on the apparatus.

**! WARNING!** - This apparatus is a Class I product. This product must be connected to a mains socket outlet thru an AC to DC Power supply.

**! WARNING!** - The mains plug is used as the disconnect device and shall remain readily operable.

## Application Drawing

## IP Camera-end Installation

- If you like to power the unit using a local power supply connect the 12VDC power supply to the power connector of the Vi2301A. A power adapter connector is provided to simplify connection.
- If no power supply is plugged in the unit will use PoE. When using PoE the camera has to be powered by PoE also.
- Connect the IP camera RJ45 connector to the "10/100BaseT Ethernet" port of Vi2301A using a standard Cat5/6 cable of maximum 100 m in length.
- Connect one end of the long UTP cable to the "Extended Ethernet" RJ45 connector of Vi2301A.

The link LED on the 10/100 connector should be "ON" to indicate proper connection between the camera and Vi2301A.

## Ethernet Switch/NVR-end Installation

- Connect the chassis ground screw to a solid earth ground.
- Connect the RJ45 connector of the Ethernet switch to the 10/100BaseT Ethernet port of Vi2304A/Vi2308A/Vi2316A using a standard Cat5/6 cable of maximum 100 m in length.
- Connect long UTP cables to the RJ45 connectors of the extender hub.
- Connect the 12V power supply to the power connector of the extender hub.

The link LED on the 10/100 Ethernet connectors should be "ON" to indicate proper connection between the switch and Ethernet ports of Vi2304A/Vi2308A/Vi2316A. While the Link LED, Orange for 100BaseT and Green for 10BaseT, on the extended side, in a steady state will indicate confirmed connection between extenders.

## Technical Specifications\*

### Electrical

Ethernet Interface	Standard 10/100BaseT, Full duplex only
Ethernet Rate	Auto select 10/100 Mb/s Full speed / full duplex at maximum rated distance
UTP**	100 Ohm, 3,000 ft (909 m) at 10BaseT 802.3 af 800 ft. (242m) at 100BaseT 802.3 at
Power Supply	12 VDC, 2.5 A
Status LEDs	Extended Ethernet: Green/Orange LED, 10/100BaseT Yellow LED, Activity Standard Ethernet: Green LED, Activity Yellow LED, Link Power On: Red LED
Connectors	Ethernet Interface: RJ-45 Connector Extended Interface: RJ-45 Connector Power: IEC380-8 inlet

### Environmental

Humidity	0 to 95%, non-condensing
Temperature	Operating: -40°C to +75°C Storage: -40°C to +80°C

### Mechanical

Dimensions	Vi2304A: 1.15x3.6x3.3 in., 4.2x9.2x8.4 cm (HxWxL) Vi2308A: 1.75x3.25x17 in., 4.4x8.25x43 cm (HxWxL) Vi2316A: 1.75x3.25x17 in., 4.4x8.25x43 cm (HxWxL)
Weight	Vi2304A: 0.584 lb, 265 g Vi2308A: 1.8 lb (0.82 Kg) Vi2316A: 3.25 lb (1.5 Kg)
Material	Aluminum

### Accessories

12 VDC, 3 A wall-mount power supply (optional)  
Rack mount brackets

\*Specifications subject to change without notice.

\*\*Distance figures are obtained using in house testing mirroring installations. Factors such as cabling, connections use of power and environmental conditions may affect actual distances and should be taken into consideration.

## Status LEDs

LED Name	Color	Status	Function
Power	RED	OFF	Power is OFF
		ON	Power is ON
Traffic (Extended Side)	YELLOW	OFF	No Traffic
		FLASHING	Traffic
10/100 BaseT (Extended Side)	GREEN	ON	Connection is OK, 10BaseT Mode
	ORANGE	ON	Connection is OK, 100BaseT Mode
Traffic (Standard Side)	GREEN	OFF	No connection
		FLASHING	Connection is OK with Traffic
Link (Standard Side)	YELLOW	OFF	No connection
		ON	Connection is OK

## Limited Lifetime Warranty

Vigotron, Inc. warrants that all Vigotron products ("Product"), if used in accordance with these instructions, will be free of defects in material and workmanship for lifetime defined as the duration period of time until product end of life is announced. After which Vigotron will continue to provide warranty services for a period of 3 years. Period covering valid warranty will be determined by proof of purchase in the form of an invoice from an authorized Vigotron dealer.

Warranty will only be provided for as long as the original end user purchaser owns the product. Warranty is not transferrable. At Vigotron's option, defective product will be repaired, replaced or substituted with a product of equal value. This warranty does not apply if, in the judgment of Vigotron, Inc., the Product fails due to damage from shipment, handling, storage, accident, abuse or misuse, or if it has been used or maintained not conforming to Product manual instructions, has been modified, or serial number removed or defaced. Repair by anyone other than Vigotron, Inc. or an approved agent will void this warranty. Vigotron, Inc. shall not under any circumstances be liable to any person for any incidental, indirect or consequential damages, including damages resulting from use or malfunction of the product, loss of profits or revenues or costs of replacement goods. The maximum liability of Vigotron, Inc. under this warranty is limited to the original purchase price of the Product only.
